**[Google Releases Security Update for Chrome](#)**

*03/08/2016*

Original release date: March 08, 2016

Google has released Chrome version 49.0.2623.87 to address multiple vulnerabilities for Windows, Mac, and Linux. Exploitation of some of these vulnerabilities may allow a remote attacker to take control of an affected system.

Users and administrators are encouraged to review the [Chrome Releases](#) page and apply the necessary update.
