Cyber Security Awareness Bulletin:

[Microsoft Releases April 2016 Security Bulletin](#)

04/12/2016

Original release date: April 12, 2016

Microsoft has released 13 updates to address vulnerabilities in Microsoft software. Exploitation of some of these vulnerabilities could allow a remote attacker to take control of an affected system.

Users and administrators are encouraged to review the following Microsoft Security Bulletins [MS16-037 through MS16-050](#) and apply the necessary updates.
