National Cyber Awareness System:

[OpenSSL Releases Security Updates](#)

05/03/2016

Original release date: May 03, 2016

OpenSSL has released security updates to address vulnerabilities in previous versions. Exploitation of one of these vulnerabilities may allow a remote attacker to take control of an affected system.

Available updates include:

- OpenSSL 1.0.2h for 1.0.2 users
- OpenSSL 1.0.1t for 1.0.1 users

Users and administrators are encouraged to review the [OpenSSL Security Advisory](#) page and apply the necessary updates.
